Successful candidate will be part of an international team with dedicated and professional attitude and has to full-fill the following requirements:

Job description:

- Performing of gross morphology necropsies
- Preparation and processing of paraffin and cryo histology samples
- Preparation of chemicals and biological solutions
- Basic, special histological and immunohistochemical (both BF and IF) staining of tissues and cells
- Collaboration in the preparation and implementation of experiments in histopathology field
- Data processing
- Routine maintenance of laboratory equipment
- Other work activities as instructed by direct supervisors

Required Skills/qualification:

- Education in biological, veterinary, medical or related field at least at high school leaving diploma level required
- Medical eligibility for laboratory work, willingness to work with laboratory animals and animal samples (mouse, rat)
- Interest in learning and understanding of new methods and techniques
- Working knowledge of English language and office / database software

We offer:

- Job opportunity in the international environment of top research centre
 - Possibility of professional growth and further education
 - Competitive salary
 - Five weeks of vacations, three sick-days and a wide range of IMG benefits
-

An experience with work in the histopathology laboratory, with rodent handling, study/work experience abroad and a valid certificate for working with laboratory animals. However, the position is also suitable for graduates.

The positions are available immediately. The length of contract is 12 month in the first stage of work but we intend to further extend the contract.

Please sent your application, CV and references (if available) to Mr. Libor Danek (libor.danek@img.cas.cz). If you have any questions related to the position, please send them by email as well.

We thank all who apply for their interest, however only shortlisted candidates will be contacted.
